ABOUT ME

Hi, I'm Luis, a versatile **Frontend Developer** with 4+ years of experience designing, building, delivering and mantaining complex sites and web applications.
I have experience working with US companies and leading IT teams.

WORK EXPERIENCE

WEB DEVELOPER
PLUS MARKETING
2017-Present

Managed website development projects from initial design through completion, optimizing all cross-browsers and multi-platform compatibility.

Developed, managed and maintained 40+ web properties in different content management systems.

Improved overall website performance by implementing optimization on code, files and structure.

JS and HTML development in and outside of React/Next for landing pages, microsites and applications.

Training and leadership to the frontend team, winning a state award for most creative page 2018 (UVM Award).

Migration and deployment of all websites from Bluehost to AWS, using Lightsail instances, EC2, S3, Route 53, Lambda and more.

FRONTEND DEVELOPER
FREELANCE
2018-Present

Worked with a US company to develop a Vanilla JS application with Paper JS library.

Developed a Webpage for a start-up company to show their product, for cultural purposes. Built in Next JS. Authenticator, Dashboard, Payments webpage.

Built an incremental site generator with Next JS using contentful as a CMS.

Developed a complete functional Ecommerce for mexican brand using React JS and Material UI library.

Developed a SPA using Vanilla Javascript. Use axios to fetch data from API Rest.
